

Opening of New London Fixed Income Broking Desk

The Board of Integrated Asset Management plc (“Integrated”) are pleased to announce the latest expansion of the Integrated Financial Products broking operation. With the continued growth of the Milan branch, with desks covering fixed interest, equity, FX and derivatives for institutional investors, we have now launched a London desk, focusing on government and corporate bonds.

Emanuel Arbib, CEO of Integrated commented; “We have a strong presence in Milan and have built the capability of serving a broad institutional client base in a range of products. Whilst competition in London is fierce we believe that there exists a place for an independent agency broker with strong client relationships. We intend to leverage on our existing Italian platform which has been operating for over a decade. We welcome the first members of the new desk and we look forward to a successful launch.”
